

GRADY FRANKHOUSE

SUMMARY

Motivated and detail-oriented Information Science student with a strong foundation in IT support, data analytics, and project coordination. Experienced across diverse work environments from corporate IT internships to fast-paced service roles demonstrating adaptability, problem-solving, and technical proficiency. Proven success supporting project management teams, troubleshooting IT systems, and using platforms like Azure GIS and AWS for data-driven decision-making. Hands-on experience with Python programming, web development, and digital analytics. Passionate about leveraging technology to improve operations and user experience, with strong interpersonal skills honed through leadership roles in campus organizations and community service.

EXPERIENCE

Project Management, Resource Coordination Intern, 05/2024 - 09/2024 **Emergent Holdings - Lansing, MI**

- Prepare and maintain project documentation, including project plans, status reports, and meeting minutes, while assisting in the allocation and management of project resources, including personnel, equipment, and materials.
- Provided support for IT-related issues throughout the internship, troubleshooting technical problems, and ensuring smooth project operations.
- Assisted teams with software and system access, resolving technical issues, and coordinating with IT departments to improve workflow efficiency.

Station Chef, IT Support, 05/2019 - 09/2024 **Fiorelli's Restaurant Collection - Flat Rock, MI**

- Provided technical support for kitchen and front-of-house operations, assisting with POS systems, inventory management software, and troubleshooting hardware issues.
- Promoted from dishwasher to station chef within six months, showcasing adaptability, problem-solving, and technical proficiency in a fast-paced environment.
- Implemented process improvements by analyzing workflow inefficiencies and suggesting technology-driven solutions to enhance operational efficiency.
- Collaborated with management to maintain digital records, optimize scheduling software, and ensure seamless communication between teams.

Pro Shop Attendant, IT Operations Assistant, 04/2019 - 09/2023 **Huron-Clinton Metroparks - New Boston, MI**

- Managed and supported POS systems, troubleshooting technical issues to ensure seamless transactions.
 - Assisted with inventory tracking and management, utilizing software to monitor stock levels and optimize ordering processes.
 - Provided technical and operational support to improve workflow efficiency in a fast-paced retail environment.
-
